The 2021 COLLECTION

From the founders.

‘Our mission is simple: to create original, beautiful and functional objects that accentuate and add life to all types of spaces for people to live and interact.’

Plant Pots

Jelly PLANT POTS

NEW

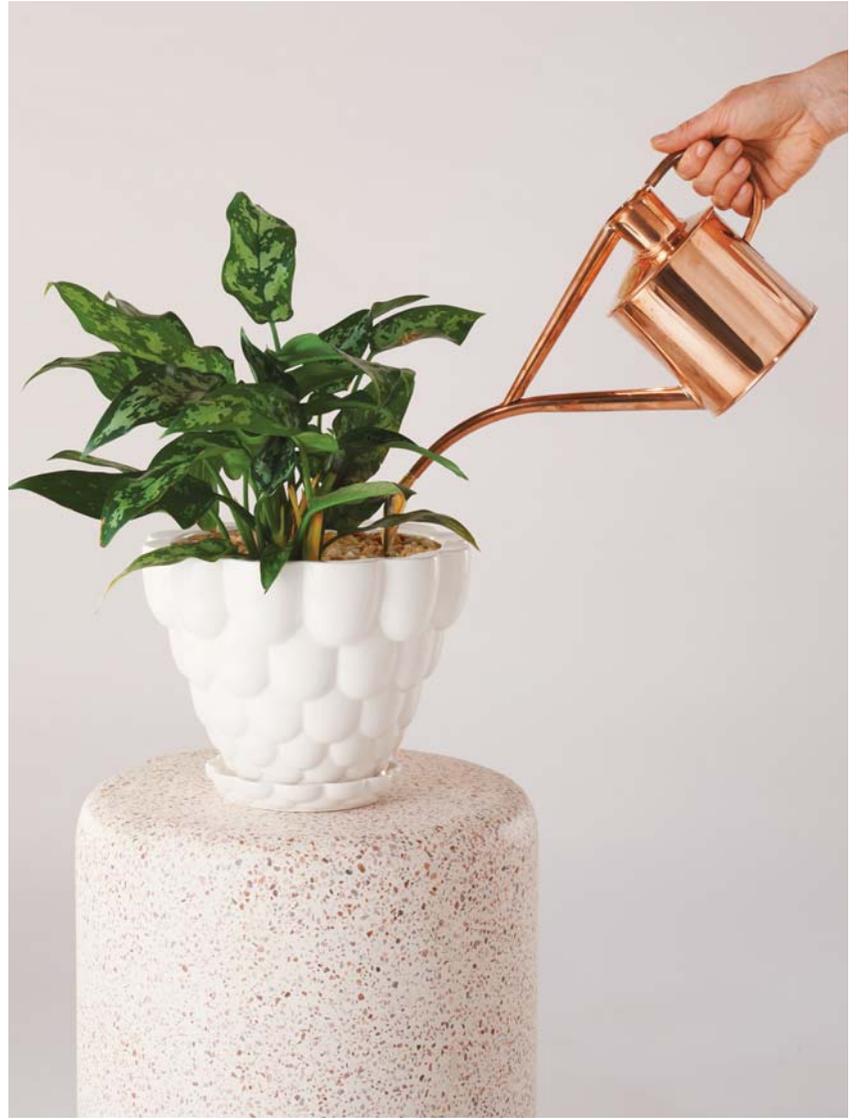

To coincide with the 10-year anniversary of our original hanging jelly planters, we are proud to present the jelly planter pots! Adding to our stable of truly original, designer plant pots, this new pot design celebrates a decade in production of our enduring and quirky jelly inspired shape. The Angus & Celeste hanging jelly planter has been a main stay of the Melbourne ceramic planter boom since it began in 2011.

Channelling a 50s retro design aesthetic these planters are available in 7 pastel shades. Highly crafted in stained high-fired porcelain, and carefully glazed inside and out, these planters are sure to look fresh for decades to come.

Boasting a generous planting volume and complete with a matching scalloped drip tray that mimics the pot shape, this pot not only looks amazing but keeps your plants thriving and healthy! This exciting plant pot is bold enough to speak for itself, and will bring a fun and playful aesthetic to your growing plant collection.

Hanging JELLY PLANTERS

CELEBRATING 10 YEARS

Arguably one of our most recognised and enduring designs, the hanging jelly planter celebrates 10 years in production. The 18th and 19th centuries saw elaborately shaped jellies as glorious table centrepieces. Fascinated by such beautiful shapes, Angus & Celeste created this functional series of hanging planters to bring a unique, playful feel to your garden or home environment.

Channelling a 50s retro design aesthetic these hanging planters are available in 7 pastel shades. Highly crafted in stained high-fired porcelain, and carefully glazed inside and out, these planters are sure to look fresh for decades to come.

Versatile in their application, these hanging planters can be used inside and out with our trademark stainless steel cabling system. Suitable for a variety of indoor and outdoor plants, let these unmistakable shapes add a touch of colour and fun to your foliage!

Spiral PLANT POTS

NEW

Meet the A&C spiral planter, for those that love plant pots with a difference and a truly mesmerising shape; this planter was made for you!

Nature has an undeniable affinity with spirals and their significance is prevalent throughout our world. An extension of our well loved 'spiral' hanging planters; these planter pots were a natural progression.

Evocative on many levels, these spirals bring to mind everything from seashells to soft serve ice cream, creamy marshmallow ropes, a twisting jungle vine or the unfurling of a new fern leaf.

These elaborate shapes are slip cast by hand in a complex, multi-lobed mould. Each component of the mould is cracked open, after each casting cycle, to reveal the soft bulbous form. The seam-lines are carefully fettled and smoothed by hand before the glaze is applied. Made from strong, high-fired porcelain and offered in vivid white and a soft blush pink, these planters will compliment and match all variety of foliage types.

Each spiral planter is put on a pedestal with the slim line, white powder-coated plant stand. This enables the planter to be easily spun and rotated on the stand, allowing your foliage to be angled and repositioned to catch the light, and grow symmetrically. With a generous planting volume, these pots will accommodate a huge variety of indoor and outdoor plants. Each planter has a drainage hole at the base, with silicone plug supplied. This enables the planter to be potted directly into, or used as a plant sleeve for your newest nursery specimens.

Decorative PLANT POTS

NEW

Classically shaped and coupled with a matching drip tray, our Decorative Plant Pots are bright and playful, as well as timeless in their appeal. Made from the finest quality high-fired porcelain, these plant pots add colour to your indoor or outdoor garden spaces. Decorated with all original Angus & Celeste screen print artworks, this decorative plant pot range offers a vibrant alternative to those wanting a pot with a little bit of pizzazz! Recently re-released with all new signature A&C prints, these pots are great gifts for the gardener with everything or the avid collector.

Collectors GRO POTS

The Collectors Gro Pots are the latest 'small size' planter offering by Angus & Celeste.

Available now in three handy sized planters with a generous drip tray, are designed for a variety of small plants.

NEW

THE KINFOLK GARDEN

Milkwash ARTISAN PLANTERS

These hand-thrown, iron-bearing stoneware planters are a celebration of artisan pottery at it's best. Our team of craftspeople in Jiangxi province, China, make each planter from local rustic clay. These pots are finished with a durable milky white gloss glaze, which allows soft hints of iron from within the clay to bleed through the surface during kiln firing, resulting in a classic pottery finish.

Each piece is not only hand-thrown but also features a hand-carved surface decoration in either straight or wavy line design.

Two small tab handles add a touch of fun to the design and make it easy to pick up and move your pot for watering.

Possessing an intrinsic beauty that only handmade ceramics can, these pots are perfect for those looking to pair their plant collection with natural materials in an earthy aesthetic.

Each pot has a drainage hole at the base and a rubber stopper for drip-free use.

The clever design utilises a beech wood and silicon stopper, which allows soil to be fully hydrated by allowing maximum water uptake before draining any excess water.

After watering, simply remove the plug and tilt to make draining a breeze.

Each crisp white porcelain planter is individually hand painted in ceramic oxide making each painted line unique in its thickness and weight.

Designed for indoor use specifically, the Poured Plant Pod is a clean and elegant solution for indoor gardening.

Abstract Line PLANT POTS

Line is the most basic of all the design elements.

Angus & Celeste's Abstract Line planters are a celebration of this.

Our thick line planter is created from a series of bold expressive brushstrokes, while our thin line planter, is a more considered and finer exploration of line. Both come with a generous deep drip tray.

Embossed PLANT POT

White Water Bead PLANT POTS

The Angus & Celeste 'White-Water' Bead glaze collection resembles tiny droplets of water beading onto this crisp high-fired clay body.

Reticulation glazes are otherwise known as crawling glazes, cleverly created by adding large percentages of magnesium carbonate to the glaze mix. The textured surface has an incredibly tactile quality and feels great to touch.

Hanging Planters

Sandstone HANGING PLANTER

Embodying the values of minimalism, the Sandstone Hanging Planter broadens the scope of possibilities for simple and beautiful design.

The clean lines of the cylindrical shape is coupled with an attractive vegan-leather hanging system.

Decorative HANGING PLANTERS

*A generous, rounded shape
allows for plenty of potting
room for your finest botanical
specimens.*

White HANGING PLANTERS

Crisp, clean white hanging planters are versatile and fit into any indoor or outdoor space. Suspended with a super fine, high-strength, stainless steel hanging system that can withstand multiple environments.

Raw Earth HANGING PLANTERS

Our beautiful raw earth planters are suitable for indoor and outdoor use.

Made from high quality stained porcelain, they exhibit a wonderfully tactile and matt finish.

Perfect for modern designer interiors or a dry climate aesthetic.

The contemporary bowl shape has a generous depth and width, to fit a variety of plant species. As with all our hanging planters, these feature a drainage hole at the base which includes a rubber stopper for indoor use.

Macrame HANGING PLANTERS

*So you love the laid-back boho look of macramé,
but not into over the top beads, loops and tassels?*

*Angus & Celeste macramé hanging planters
do just the trick.*

The A&C macramé hanging planters are designed with a minimalist aesthetic in mind while also celebrating the throwback vibes of macramé, making them look modern in any space.

Spiral HANGING PLANTERS

These wonderfully elegant planter bowls are a delight to the eyes, with a generous planting volume, they will accommodate a huge variety of indoor and outdoor hanging plants.

White Water Bead HANGING PLANTERS

Embossed HANGING PLANTER

Beautifully textured, these hand stamped planter bowls designed by Angus & Celeste, have a lovely, subtle matt finish. Ideal for complimenting minimal spaces, they are crafted in pure white porcelain to contrast a myriad of different coloured foliage. Perfect for lovers of airy, light, white spaces.

Tabletop

Bohemian Blue DINNERWARE

To create this modern take on the tradition of blue and white ceramics, Angus & Celeste have used a vibrant and striking Klein Blue to bring the Bohemian Blue design to life.

This fascinating blue was created by the artist Yves Klein who collaborated with Edouard Adam, a Parisian art paint supplier whose shop still operates today, to create the International Klein Blue colour.

Floral Forager DINNER SET

Every day is a Sunday when you use the Angus & Celeste 'Floral Forager Dinner Set'. It is beautifully lightweight, immensely strong and dish washer safe. They could be combined to compliment any plain coloured plates you may already have.

Imaginary BOTANICAL MUG SETS

Love colour? The Angus & Celeste Imaginary Botanical mug sets are our fantastical mug set offering, featuring our unique botanical artwork in raised relief pattern.

Tempted and can't decide on colour? Why not collect them all! Our Imaginary Botanical mugs look great mixed in a vibrant table setting or crockery cupboard.

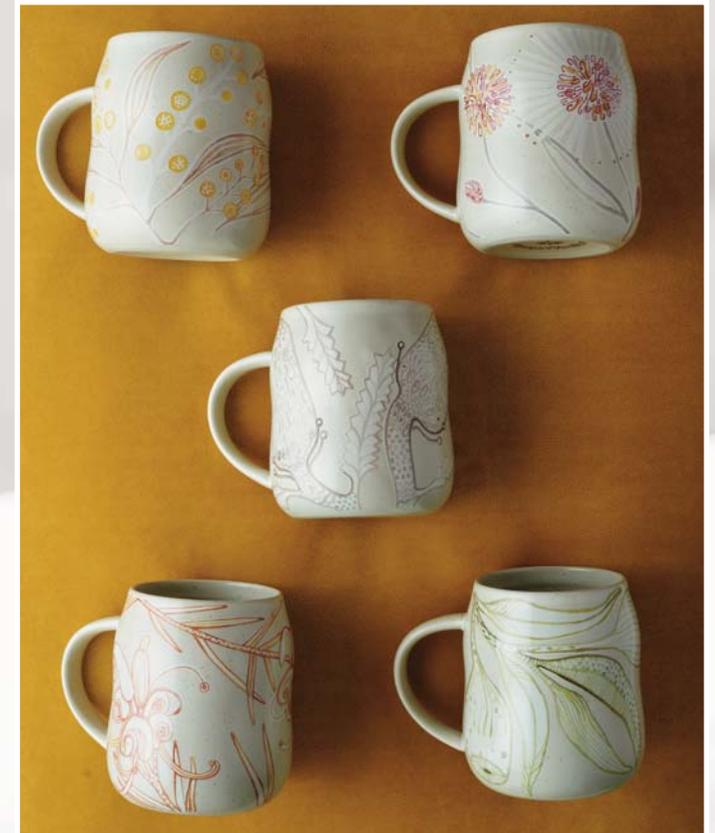

A generous 450 ml capacity ensures that these mugs will suit all types of beverages. Crafted from high-fired pigmented porcelain, these mugs are both microwave and dishwasher safe. They are beautifully gift-boxed in a set of two (2).

Everyday MUG SETS

Angus & Celeste's Everyday Mugs are crafted from high-fired stoneware and decorated with our original, botanically inspired, A&C artwork.

The smooth, speckled glaze gives an earthy appeal, and the comfort handle feels great to hold. The unique beehive shape helps to keep your drinks nice and hot. Wrap your hands around these to enjoy a warm hug in your hands.

The patterns include our top five Australian Flora. Collect the entire range to impress guests or gift to special friends. True to their names, these mugs are sure to become your 'everyday' morning favourite in no time at all! Holding a generous 400 ml capacity, these mugs are microwave and dishwasher safe. They are beautifully gift-boxed in a set of two (2).

Tumbler SETS

The Angus & Celeste Ceramic Tumbler Sets are designed to be used in pairs to bring people together over a refreshing drink and absorbing conversation.

The best things in life should be shared. Whether it be a good book, a delicious meal, or a refreshing drink, sharing increases our enjoyment many times over.

Available in a range of colourful designs, the Angus & Celeste Ceramic Tumbler sets are the perfect gift or souvenir and can be collected over time to create an eye-catching set.

White Water Bead TUMBLERS

These Angus & Celeste tumbler sets are part of our reticulating White-water bead glaze range. They are a celebration of this unique ceramic glaze, which, means that no two cups are the same. These tumblers can be used for liquids of all temperatures; so get creative with icy cold drinks in summer and hot kettle drinks in winter! Crafted from high-fired durable ceramic, they are dishwasher and microwave safe

Artform VASES

The Angus & Celeste 'Artform Vases' are an organically shaped, sculptured vase duo. Their soft, voluminous and fluid lines are suggestive of the human form. These original, designer shapes are molded from a hand built clay form and produced in contemporary slip cast matt-pigmented porcelain and glazed inside for easy care.
